This full-color book covers every aspect of one of the best-loved classic racing machines, from its beginnings back in Small Heath through the Brooklands days, Trials, the Café Racer scene to the classic scene of today. Lavishly illustrated. The BSA and Triumph motorcycles designed for the 1971 model year, including Ariel 3 and the 750cc Triumph Hurricanel. A study of related promotional and racing events, the US organisation, and BSA's financial position prior to 1971's devastating trading loss announcement. BSA was once the world's most successful motorcycle company, manufacturing more machines than any other in the world by the mid-1950s. And yet, after winning the Queens Award to Industry for exports in 1967 and 1968, it collapsed into bankruptcy in 1973. This is an epic story of rise and fall, even by the precarious standards of the British motorcycle industry. With over 170 illustrations, this book recalls the founding of the company and its foray into bicycle and then motorcycle production. It describes the evolution of the various models of motorcycles including specification tables and discusses the diversification into cars, commercial vehicles

and guns for Spitfires. It recounts the successes - two Maudes Trophies and numerous racing victories, and documents the fall from grace to bankruptcy and beyond. The BSA unit singles - 250, 350, 441 and finally 500cc - may not have been the most glamorous product of the British motorcycle industry, but they were the 'first bikes' for thousands of learner riders and had a great track record in scrambling and motocross. Today, they offer a simple and affordable entry into the world of British classic machines, with a whole range of sizes. Spares are still available, as is friendly and knowledgeable fellow owners. Following the tried-and-tested Veloce Essential Buyer's Guide format, this book delves into what it's like to live with one of these bikes, and the values, advantages and disadvantages of the different models. Plus, of course, what you need to look for when buying one - the engine, transmission, frame, brakes, suspension, paint, chrome ... and everything else! Armed with this book the owner will be able to dismantle and rebuild any unit single engine - and then make them go better and more reliably than even BSA thought possible All you need to know about buying a used BSA unit single, from the very first 250cc C15 to the final 500cc B50. Get the low-down on model histories, relative values, points to look for, plus advice on paperwork, auctions and restorations, and more. In this book 30 significant examples of restored race bikes are profiled with colour photography and detailed information about the machine's race pedigree and historical significance.
