Children's Nature Sep 02 2021 For over a century, summer camps have provided many American children's first experience of community beyond their immediate family and neighborhoods. Each summer, children experience the pain of homesickness, learn to swim, and sit around campfires at night. Children's Nature chronicles the history of the American summer camp, from its invention in the late nineteenth century through its rise in the first four decades of the twentieth century. Leslie Paris investigates how camps came to matter so greatly to so many Americans, while providing a window onto the experiences of the children who attended them and the aspirations of the adults who created them. Summer camps helped cement the notion of childhood as a time apart, at once protected and playful. Camp leaders promised that campers would be physically and morally invigorated by fresh mountain air, simple food, daily swimming, and group living, and thus better fit for the year to come. But camps were important as well because children delighted in them, helped to shape them, and felt transformed by them. Focusing primarily on the northeast, where camps were first founded and the industry grew most extensively, and drawing on a range of sources including camp films, amateur performances, brochures, oral histories, letters home, industry journals, camp newspapers, and scrapbooks, Children's Nature brings this special and emotionally resonant world to life.

In Search of Chin Identity Jun 30 2021 "Chinram was once an independent land ruled by local chieftains and following traditional Chin religion. This world was abruptly transformed in the early twentieth century, however, by British annexation and the arrival of Christian missionaries. As the Chin became increasingly related to Burmese independence movements, they began to articulate their own Christian traditions of democracy and assert a burgeoning self-awareness of their own national identity. In short, Christianity provided the Chin people with a means of preserving their national identity in the midst of multi-racial and multi-religious environments."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
