Later chapters discuss gait through life span, gender differences, cultural variations, changes seen in aging populations, & clinical examples. Thought questions are provided for each chapter with answer keys & bibliographic references at the end of the book. A unique feature of this book is the fact that students develop their own gait analysis forms & are guided in developing their skills in observational gait analysis. This process builds on the student's comprehension of the material while allowing each person to synthesize the information into a format that best suits each individual's learning style.

Anatomy Embryology & Histology (Vol. 4) Oct 15 2022 The ultimate aim of any teaching system is to produce the best scholars & the best professionals in the today's scenario with futuristic approach so that when given a chance they must be able to exhibit their past knowledge. To verify or quantify this knowledge the student/scholar has to undergo certain exam. Nowadays the best exams are supposed to be those having Multiple Choice Questions i.e. MCQ's as integral part because of two important reasons, First easy to conduct & uniform evaluation for all students, that is no bias, Second MCQ's checks memory/recall memory/reasoning & ability to be precise in terms of reading /understanding and speed with ability to record answers with accuracy too. The book on this subject " Exam Success Review ANATOMY MCQ's- Volume-4, Embryology & Histology for Medical Students – MBBS 1st Prof & PG Entrance " will be helpful as a companion for fast revision during examination and will help them certainly to secure full marks in the Multiple Choice Questions in examination. I must let you know that MCQ's make about 20% to 40% of total marks in the 1st prof. MBBS exam and anybody who knows the con-cepts and art to answer the MCQ's is going to be winner not only at MBBS level but also at various Postgraduate entrance Examinations at national & state level to get the PG Course of their choices.
