Love, Violence, and Identity are multifaceted concepts of life in general and literature in particular. Much has already been written on the themes of love, violence, and identity in English literature till date; however, these emotions are still inexplicable to one and all. Love, violence, and identity have multiple connotations as words and these emotions keep multifarious nuances as expressions. On the other hand, when we try to understand them in comparison, the implications turn out to be multidimensional. This book presents a comparative study of the themes of love, violence, and identity in such a unique manner that it helps to comprehend the hidden meanings of these cumbersome concepts, and at the same time, it opens up certain remarkably new avenues of learning in the field of Comparative Literature Studies. Narrating Love and Violence is an ethnographic exploration of women's stories from the Himalayan valley of Lahaul, in the region of Himachal Pradesh, India, focusing on how both, love and violence emerge (or function) at the intersection of gender, tribe, caste, and the state in India. Himika Bhattacharya privileges the everyday lives of women marginalized by caste and tribe to show how state and community discourses about gendered violence serve as proxy for caste in India, thus not only upholding these social hierarchies, but also enabling violence. The women in this book tell their stories through love, articulated as rejection, redefinition and reproduction of notions of violence and solidarity. Himika Bhattacharya centers the women's narratives as a site of knowledge—beyond love and beyond violence. This book shows how women on the margins of tribe and caste know both, love and violence, as agents wishing to re-shape discourses of caste, tribe and community. "True love seeks to protect and not harm. Don't lie to yourself and believe that he can change if you do or say things differently. That's the lie we tell ourselves to keep him close, but all the while, we imprison ourselves." -excerpt On June 20, 1999, Tiffany Ealey began life as a wife, a decision that would shift the course of her journey. She was young when she married, and it was her love and her hopes of a future that hindered her ability to see the red flags. Her husband's temperament and his violent nature floated to the surface not too long after they were married, and since then, the violence inflicted upon her only escalated. With nowhere to run to, no one to help her leave the marriage, submissive she remained. Although she confided in the people she most trusted and disclosed domestic violence, no one helped her. It's because of her experience that she now boldly shares her story to help many women have the courage to speak and seek for help. "Knock and seek until the windows of heaven open because, with God, all things are possible to those who believe." Shows that contrary to much scholarly opinion, the New Testament is not inherently violent or supportive of violence; instead, it rejects and overcomes violence. The New York Times called What to Do When Love Turns Violent, "possibly the best single resource." Dr. Robert McAfee, past president of The American Medical Association said, "This may be the most important book of your life." The author appeared on The Oprah Show, which produced and aired a special short film about safety planning based on the book. What to Do When Love Turns Violent empowers you to find help and take back your life. Here is everything you need to know to make the right choices. The first part spells out an action plan to get out of danger and find immediate help: making a protective order work; calling the police; finding safe shelter; seeking medical attention; getting financial assistance. Part 2 details how to stay safe and regain control over your life: preparing for safety at home and on the job; protecting your children; rebuilding your life. Includes an extensive list of national and community organizations where you can find help This book seeks to imagine the possibility of a more loving masculinity in a society where structural violence, failures of government and economic inequality underpin much of the violent behaviour that men display. Enriched with personal reflections on his own experiences as a partner, father, psychologist and researcher in the field of men and masculinities, Why Men Hurt Women and Other Reflections on Love, Violence and Masculinity is Kopano Ratele's meditation on love and violence, and the way these forces shape the emotional lives of boys and men. At the core of these critical and deeply insightful texts is the question of why men hurt women they love. Ratele contends that many men in our society suffer from a painful, unrecognised, yet consequential love hunger that sets in during boyhood. This need for love may lie at the root of some of the male violence that damages the lives of women, children and men themselves. This book explores the relation between agape (or Christian charity) and social justice. Timothy Jackson defines agape as the central virtue in Christian ethical thought and action and applies his insights to three concrete issues: political violence, forgiveness, and abortion. Taking his primary cue from the New Testament while drawing extensively from contemporary theology and philosophy, Jackson identifies three features of Christian charity: unconditional commitment to the good of others, equal regard for others' well-being, and passionate service open to self-sacrifice for the sake of others. Charity, prescribed by Jesus for his disciples and named by Saint Paul as the "greatest" theological

virtue, is contrasted with various accounts of justice. Jackson argues that agape is not trumped by justice or other goods. Rather, agape precedes justice: without the work of love, society would not produce persons capable of merit, demerit, and contract, the elements of most modern conceptions of justice. Jackson then considers the implications of his ideas for several questions: the nature of God, the relation between Christian love and political violence, the place of forgiveness, and the morality of abortion. Arguing that agapic love is to be construed as a gift of grace as well as a divine commandment, Jackson concludes that love is the "eternal life" that makes temporal existence possible and thus the "first" Christian virtue. Though foremost a contribution to Christian ethics, Jackson's arguments and the issues he takes up will find a broader readership. The violence of love is a collection of extracts from Romero's homilies, letters, and articles. Each of these passages gives insight into the mind and heart of the man behind them. They show a man not afraid to expose his weakness, a man whose tremendous faith and hope call us to repentance and renewal. Originally addressed to the people of El Salvador, Romero's words speak to all people, passionately decrying injustice and violence, exhorting to peace and forgiveness, and inviting all to help build a new, just society. Chronologically arranged, the selections reflect Romero's own spiritual transformation and call us to experience a similar revolution of the heart. Romero was martyred for his insistence that following Christ cannot be relegated to the spiritual realm. He did not die in vain; the people of Central America say his spirit lives on in them. As their struggle for justice and dignity intensifies, his words take on a renewed urgency. From arranged marriages to online dating, this four-volume work presents everything from personal accounts to empirical evidence to document what creates love in our culture as well as around the world.

- Showcases individual accounts regarding the perennial question of "what is love?"
- Highlights cultural similarities and differences
- Provides up-to-date empirical research
- Supplies extensive bibliographic materials and a list of organizations regarding relationships, including abusive relationships

"As she constructively engages feminist critiques of Christianity's complicity in violence, Deidre Nicole Green challenges traditional beliefs that self-sacrifice amounts to love and that suffering is inherently redemptive by arguing for a Kierkegaardian conception of Christian love that limits self-sacrifice." -- Back cover.

Love, seduction, betrayal, violence, riddles, and myth all find their place in the biblical story of Samson. Samson is the last of the judges, with 20 percent of the book devoted to him—more than any other judge. From the beginning, Samson is unlike any other judge, which the author suggests when narrating Samson's birth. Samson is destined, even before his birth, to deliver Israel. He doesn't lead his people into battle, he acts alone; his battles are personal vendettas. Samson fights with a lion, defeats the Philistines with the jawbone of an ass, captures foxes, sets Philistine fields on fire, and carries the Gates of Gaza on his shoulders. So what stands behind these stories? Was Samson a mythological hero like Hercules and Gilgamesh? Like other men in the Hebrew Bible, Samson can't resist foreign women. Time after time, he follows Philistine women who eventually betray him. Samson is defeated not by physical strength, but by the powers of seduction, making this story a tragedy. Who were these women and how did they defeat Samson? Readers of this volume will rediscover Samson and better understand his achievements and failures. This study will afford a provocative and useful insight into the character of Samson. God loves us and wants us to love Him, each other, and ourselves. God never intended anyone to be victimized, and it is important that we love and respect ourselves, holding ourselves in high regard. Domestic violence is sin, and violent interactions break the greatest commandments. Violence is incompatible with love, and that's why it is important to embrace God's word to find out exactly what it says to us about God's love. Furthermore, we know the Holy Spirit neither produces nor condones abuse, for love and gentleness are Fruit of the Spirit according to Galatians. We are precious to Him. We are valuable to God, and His sacrifice for us proves that. No matter what we have been told, what experiences we have had, what mistakes we have made, God loves us and wants us to be loved. We do not have to labor in an arena God never intended for us to labor in, He wants us to be free. If you are in a relationship that threatens your mental and physical health, your soul and your temple, seek guidance and strength from a God who knows your struggle. He is ready to deliver you because you have dwelt long enough on this mountain.

Rejected to Accepted is a book for people who have longed for a loving and healthy romantic relationship but have not been able to encounter the "happy ever after" they have desired. After experiencing domestic violence, a series of failed and unhealthy relationships, the author was left wondering, would anyone ever love her? Rejected to Accepted explores the personal struggles and triumphs she has faced while embarking on her journey of self-discovery. More than a memoir, Rejected to Accepted will empower you to - Overcome the crippling effects of rejection and domestic violence - Learn how to love yourself and others the way God intended - How to create healthy patterns for future relationships This book provides hope and inspiration. Maybe you have personal experiences that left you heartbroken or questioning your worth. Rejected to Accepted will encourage you to allow Jesus to repair the shattered pieces of your heart with the glue of His love. A shocking look at how the idea of romantic love can justify and excuse the killing of women by their partners, and lead to sympathy and reduced sentences for the killers. The author explores how stories of domestic homicide are told in the news, by the police, and in the courts, drawing from 72 cases which took place over a twelve month period. What does Jesus have to say about violence, just war, and killing? Does Jesus ever want his disciples to kill in order to resist evil and promote peace and justice? This book by noted theologian and bestselling author Ronald J. Sider provides a career capstone statement on biblical peacemaking. Sider makes a strong case for the view that Jesus calls his disciples to love, and never kill, their enemies. He explains that there are never only two options: to kill or to do nothing in the face of tyranny and brutality. There is always a third possibility: vigorous, nonviolent resistance. If we believe that Jesus is Lord, then we disobey him when we set aside what he taught about killing and ignore his command to love our enemies. This thorough, comprehensive treatment of a topic of perennial concern vigorously engages with the just war tradition and issues a challenge to all Christians, especially evangelicals, to engage in biblical peacemaking. The book includes a foreword by Stanley Hauerwas. A critical study of eight fictional treatments of domestic violence, combining professional understanding of domestic violence with fictional attempts to cope with the theme. Includes complete stories by Ernest Hemingway, John Cheever, George Eliot, D. H. Lawrence, John Steinbeck, Isaac Bashevis Singer, James Joyce, and Ann Petry. For students and academics. The story of the novel stems from the 1982 religious riot that occurred in the southernmost part of India and impacted the other regions in India as well. It further highlights the inter-religious conflicts entangled with the premarital and the extramarital relationship. It is a historical fiction trying to bring back the memories of the past with the first person narration involving multiple characters and subplots. There is an exhibition of a colourful relationship between a father and a son, a father and a daughter, a brother and a sister, a mother and a daughter, friends and ex-friends etc. It sketches a fine portrayal of life and the culture of fisher-folk and their day-to-day struggle with the sea and also the never-ceasing fights fought over the mechanism of fishing and family feuds, strongly dividing the villages into two antagonizing

groups inviting political interference. Using conversations, observations, and reflections, psychologist Kopano Ratele meditates on love, violence and masculinity. This book seeks to imagine the possibility of a more loving masculinity in a society where structural violence, failures of government and economic inequality underpin much of the violent behavior that men display. Enriched with personal reflections on his own experiences as a partner, father, psychologist and researcher in the field of men and masculinities, *Why Men Hurt Women and Other Reflections on Love, Violence and Masculinity* is Kopano Ratele's meditation on love and violence, and the way these forces shape the emotional lives of boys and men. At the core of these critical and deeply insightful texts is the question of why men hurt women they love. Ratele contends that many men in our society suffer from a painful, unrecognized, yet consequential love hunger that sets in during boyhood. This need for love may lie at the root of some of the male violence that damages the lives of women, children and men themselves. Blending academic analysis and rigor in a readable narrative style, Ratele illuminates the complex nuances of gender, intimacy and power in the context of the human need for love and care. While unsparing in his analysis of men's inner lives, Ratele lays out a path for addressing the hunger for love in boys and men. He argues that just as the beliefs and practices relating to gender, sexuality and the nature of love are constantly being challenged and revised, so our ideas about masculinity, and men's and boys' capacity to show genuine loving care for each other and for women, can evolve. How do we practice reconciliation in a world full of violence? How do we love someone at work who seems hell-bent on sabotaging a successful career? And how do religious people resolve differences when religious interpretations seem to lead to righteous indignation rather than reconciliation? We practice reconciliation, according to Michael Battle, by affirming that God is present and acting on that belief, even in the midst of something that looks more like the devil's work. Battle, who worked with Desmond Tutu in South Africa in the past, draws on his knowledge of biblical texts, as well as contemporary scholarship, to examine the ways in which each of us can practice being reconciling people. Women love being abused, for some gratification or another, ever wonder why they go for the "bad boy types" and the good guys get over looked? This treatise articulates Tolstoy's famous dictum that it is morally superior to suffer violence than to do violence — a philosophy that has inspired Gandhi, Martin Luther King, Jr., and countless others. *Hardwired for Love* is a unique book describing how human beings are made to love and be loved. Each person has an innate way of giving and receiving love. God has created us in His image to live in Love. We are created to Love and be loved. We were designed to live with peace, wholeness, and fruitfulness in every area of our life. God's purpose is to bring the fullness of His Love for individuals, families, and nations. Jesus came for salvation, deliverance, and healing. The enemy of our soul hurls violence towards our being to disrupt the flow of love from heaven. Today, violence is an ongoing assault that we see in headlines around the world. *Hardwired for Love* examines how violence affects our personal lives and relationships. Violence interferes with the bond between God and people. Violence interferes with people's relationships. Violence, on the whole, is designed to fracture and destroy people so they become wounded and ineffective. Violence tries to cripple people's hearts and insert fear to move them off their God-given path of destiny. In this book, the discovery of the effects of violence and God's healing balm of love is examined. *Love Wins!* As her weak and battered body lay paralyzed on the mattress in her master bedroom, Michelle's boyfriend's blood dripped from the lacerations on his hands onto her bruised and mangled face. Using what little energy she had left, she broke free from his grasp and fell to her knees, begging God to forgive Paul for what he was doing and to make him stop. Paul simply laughed and replied, "God isn't going to help you now." In that instant, Michelle saw her life flash before her eyes and wondered how she got there...again. *But I Love Him* is a painful yet inspirational true story of a strong, independent woman caught in the horrifying cycle of domestic violence and how she got out. In this book, Michelle shares the details of her struggle with genuine honesty, taking the reader on a twisted journey of love, pain and unyielding brutality that eventually leads...to peace. Mixing statistics, research and resource with her own account, she shows just how far someone in her situation can sink, why it happens and how they can always pick themselves back up. Those who hear Michelle's story will walk away with a newfound understanding about the horrors of domestic violence, how to escape and how to build a new, healthier life. Michelle has had numerous appearances on talk shows, speaking engagements and workshops and has led multiple seminars on the harsh reality of violence against women and overcoming obstacles. A critical, philosophical engagement of the psychological structures that propagate the continued oppression of women. In this book, the Italian feminist thinker Lea Melandri argues that systemic violence against women has deep psychoanalytic roots. Drawing inspiration from the work of Freud and the psychiatrist and psychoanalyst Elvio Fachinelli, along with feminist practices of consciousness-raising, Melandri demonstrates how male dominance and female subservience are established by society through a binary and oppositional understanding of sex and gender. This understanding—and the oppression and violence against women that results—is inscribed in the psyches of both men and women, and is replicated anew from generation to generation. Melandri analyzes women in media, politics, philosophy, and literature to show how this plays out, and calls for awareness of these deep psychic structures and expectations formed within the dynamics of society and primary family relations. "This is a book by a seasoned, experienced, and quite committed Italian feminist thinker who has much to offer to our current

context. Linking love and violence as she does, Melandri asks us to face the disturbing fact that deep, often almost atavistic, ties between son and mother, and then husband and wife, are the source both of intense bonds of love as well as furious clashes of hate and violent acting out. For this insight, and for the careful way she works out her argument in this book, Melandri should be read by an English-language audience, and this fine translation will provide the means for it to do so.” — Rebecca West, University of Chicago

Issues of war and terrorism have concentrated attention once again on the role of the use of force in the world today. Published in 1973, Professor John Ferguson's *The Politics of Love* remains a timely and relevant treatise on the alternatives to violence. In a scholarly yet accessible account, he looks at the New Testament to reveal a Christian basis for pacifism and non-violence. Personal involvement and commitment, he emphasises, can have a more profound effect to bring about much needed change than arms expenditure and brute force.
