Brieven aan de duisternis Sep 21 2020 Ik zou net zo goed brieven aan de duisternis kunnen schrijven en een antwoord verwachten. Ik weet niet eens wie je bent, maar ik heb het gevoel dat ik je begrijp. Ik heb het gevoel dat jij mij begrijpt. Juliet laat brieven achter op het graf van haar moeder. Declan werkt op het kerkhof vanwege een taakstraf. Wanneer hij een van Juliets brieven vindt, ontstaat een bijzondere briefwisseling, die zich al snel uitbreidt naar mail en app. Op papier en beeldscherm vertellen Juliet en Declan elkaar alles, denkend dat ze elkaar nog nooit ontmoet hebben. Ze zitten echter op dezelfde middelbare school. Wat doe je als de enige persoon die je echt volledig vertrouwt niet is wie je dacht dat hij was?

Epistolary Spaces Jan 06 2022 This title was first published in 2003. The author explores and describes the nature of what he terms "epistolary spaces", phenomena that came into being as a result of the foundation during the 1650s of a Post Office available to the general public. He focuses on the history of letter-writing by English men and women, and in so doing he shows how the imaginations of letter writers were affected by the increasingly cheaper, faster and more efficient postal services that were developed throughout the time period covered. The book makes a detailed study of five "real" correspondences, reading the letters in terms of their social and political interest and addressing such concerns as class, gender, collections of model letters and the importance of London to English epistolary spaces. "James How's *Epistolary Spaces* ... contains] a fascinating discussion of the ways the rise of the postal system created what he calls 'epistolary spaces' ..." Temma Berg, *The Lives and Letters of an Eighteenth-Century Circle of Acquaintance* (2006) "James How's *Epistolary Spaces* ... reconstructs in meticulous detail the

history of the national postal system and its effects on letter writing, from the Renaissance to the 18th century ... How also highlights the role of the new postal system in connecting all the people of England to the capital city of London ..." Sonia De Angelis, 'Status Quaestionis (2011) "According to James How, the foundation of a Post Office in England in the 1650s ... ensured that] the way was open to experiment in all that a correspondence could achieve: it opened up new forms of petitioning the state and the aristocracy; novels like Richardson's *Clarissa* ... suggested that a whole life could be lived in an epistolary space." Martyn Lyons, *Culture and History Digital Journal* (2012) "... a pioneering work of literary and cultural criticism, well-researched, which renews scholarly debates about epistolary communication in early modern England." Jay Caplan, *Eighteenth Century Book Reviews Online* "How writes vividly about the difference between the private carriage of a letter and the sending of a letter into impersonal common spaces, where it jostles up against other people's letters ... his account of these 'eager and enthusiastic consumers of the new space of mind opened up by the Post office', a space he compares to cyberspace, offers a provocative explanation for the appearance of the epistolary novel ..." Jocelyn Harris, *The Age of Johnson* "How's book is particularly valuable for its] attention to the institutional history and the cultural contexts that informed and shaped letter-exchanges at this time." Elizabeth Heckendorn Cook, *Prose Studies* "Mr How offers us a useful new term in letter writing, 'epistolary space' ... Readers will benefit from reading his] analysis of the nature of epistolary spaces and the growth of the postal system that changed letter writing practice; they will also appreciate a fascinating group of late seventeenth- and eighteenth-century letter writers." Cynthia Lowenthal, *The Scriblerian and the Kit-Cats* "... there is much to admire here], not least the painstaking immersion in social, personal, political and historical context, particularly, but by no means exclusively, with regard to the foundation of the Post Office and its impact on a range of activities, including, obviously, letter-writing and, less obviously, interception and counter espionage. The correspondents looked at are, moreover, not quite the usual suspects while still remaining in some measure either central to, or characteristic of, their times and stations." Allan Ingram, *Modern Language Review*

Letters of Roger Williams Oct 03 2021 Excerpt from Letters of Roger Williams: 1632 1682, Now First Collected In publishing for the first time, all the letters of Roger Williams, as far as they have come to the knowledge of the editor, it is proper to mention the sources from which they have been obtained. With the exception of a very few letters, printed in various controversial books of the period when Williams lived and wrote, the first: which appeared in print were in Backus's History of New England with reference to the Baptists, printed in 1777. A few isolated letters next appeared in the early volumes of the Collections of the Massachusetts Historical Society, and a large number in Professor Knowles' Life of Williams, published at Boston in 1834, few of which had before appeared in print. But the most considerable accession was in the "Winthrop Papers." These letters were written by Williams to Governor Winthrop of Massachusetts, and to his son John Winthrop, Jr., Governor of Connecticut, and had remained in the possession of the Winthrop family until presented to the Massachusetts Historical Society. They were published by the Society at different times, as they came into its possession; hence, are not found in one volume, but in many; the larger number being in volume VI., of the fourth series of its "Collections." Williams doubtless had other correspondents, but his letters to such were unknown to those who have written upon his life, or who have edited the recent republications of his several works. The editor of the present compilation of these letters has made further search in various Historical Collections and in other books, and he has also consulted gentlemen familiar with the writings of Williams; but only in a single instance has he been able to find a letter, not already in print. For

this letter, which is an important one, the editor is indebted to Charles Deane, Esq., of Cambridge. In presenting the letters of Williams, it was the desire of the editor to give them precisely as they were written, by preserving the language and the original orthography ;a plan which was found to be impracticable. Advice to a Young Woman at Service Feb 24 2021 Excerpt from *Advice to a Young Woman at Service: In a Letter*

From a Friend When I first heard that you had come to town, in order to go to service, I was exceedingly anxious for you. For several nights my sleep was disturbed, by thinking of the temptations to which you were exposed among strangers in a great city. Your sister called yesterday, on her way home, and told me that you -had got into a respectable family. This good news relieved my mind very much; but still my-thoughts dwell upon the trials that every day will bring with it; for you have left your native village, your pious parents, your snug and quiet home, and have placed yourself in a situation where every thing is new: you will therefore have other temptations to resist, and other exertions to make, than have ever been required of you before. My age and long experience, and especially my friendship for your mother, entitle me to some of your regard. I know that your disposition is good, and that you are ready to listen to advice. I have therefore determined, as I cannot conveniently come to you, to write you a letter; it will be a long one, and will cost me a good deal of pains, for I do not often write letters. I shall not expect you to read and destroy it, nor to lay it away in a drawer where it will not be seen; but keep it where you may frequently look at its contents, and always remember that it was written by one who has lived many years, and experienced many changes, and can now say in her old age, that she has never been so happy as when she most nearly conformed to the rules which she now gives to you. A Letter to the Right Hon. Edmund Burke May 30 2021

This River Called Life Dec 13 2019 There comes a time when you know the world you are living in is not your home. When that happens it does not matter the existing circumstances. It does not matter how late in life you may have waited. What matters is that you are ready to jump into the life your soul has longed for. This is when you feel alive. This is when you know everything you have been prepared for is coming together, and it is time...time to finally live who you are. This realization is magical and resonates possibly for the first time with your life's purpose. My message is don't wait for what you know you are born to do. When you have a talent, it needs to be shared. When you have a dream, it needs to be lived. When your heart is leading you and your passion is talking to you, listen! Life is about your unique journey, and the difference you can make. There is nothing that will compare with your decision to finally go in the direction you are meant to go and all the magic that happens from that decision. This is when life finally falls together. Originally written only for my Children as inspiration and guidance about life, *This River Called Life, A Letter to My Children* is encouragement...about taking control of your destiny instead of accepting what life lays in your lap. It's about finding yourself, believing in your dreams, believing in yourself, leaving yesterday behind, and creating a world as unique as you are. What has been in your life up till now has nothing to do with what can be.

A Letter to My Teacher Jan 14 2020 This funny, touching picture book celebrates the difference a good teacher can make. Written as a thank-you note to a special teacher from the student who never forgot her, this moving story makes a great classroom read-aloud, and a perfect back-to-school gift for students and teachers! Dear Teacher, Whenever I had something to tell you, I tugged on your shirt and whispered in your ear. This time I'm writing a letter. So begins this heartfelt picture book about a girl who prefers running and jumping to listening and learning—and the teacher who gently inspires her. From stomping through creeks on a field trip to pretending to choke when called upon to read aloud, this book's young heroine would be a challenge to any teacher. But this teacher isn't just any teacher. By listening carefully and knowing just the right thing to say, she quickly learns that the girl's unruly behavior is due to her struggles with reading. And at the very end, we learn what this former student is now: a teacher herself. From award winning author Deborah Hopkinson and acclaimed illustrator Nancy Carpenter, this picture book is made to be treasured by both those who teach and those who learn.

A Letter to Santa Apr 16 2020 It's almost Christmas time! Nick started writing his letter to Santa. But this year, he

felt pretty sad. Lately, his life had been quite different than before. So, the little boy was not certain that Santa would visit him. In spite of it all, Nick finished his letter, walked to his mail box and dropped his letter to Santa. Not long after, the mailman showed up. As he was dropping the red envelope in his bag, the wind started blowing. The letter slipped out of his hand and flew away. And then, a long and solitary stroll across town started for the poor little red envelope. Ouch! Ouch! Where will it land? Will the letter reach the North Pole in time? Will Nick receive Santa's visit?

A Letter to the Women of England and The Natural Daughter Aug 01 2021 Mary Robinson's *A Letter to the Women of England* (1799) is a radical response to the rampant anti-feminist sentiment of the late 1790s. In this work, Robinson encourages her female contemporaries to throw off the "glittering shackles" of custom and to claim their rightful places as the social and intellectual equals of men. Separately published in the same year, Robinson's novel *The Natural Daughter* follows the story of Martha Morley, who defies her husband's authority, adopts a found infant, is barred from her husband's estate and is driven to seek work as an actress and author. The novel implicitly links and critiques domestic tyrants in England and Jacobin tyrants in France. This edition also includes: other writings by Mary Robinson (tributes, and an excerpt from *The Progress of Liberty*); writings by contemporaries on women, society, and revolution; and contemporary reviews of both works.
